Sydney Wildlife rescues, rehabilitates and releases thousands of sick, injured and orphaned Australian native animals every year.

To raise much needed funds for the rehabilitation of kangaroos and wallabies Sydney Wildlife is taking part in a special *Global Giving* fund-raising challenge during the month of April. Please help Sydney Wildlife reach our April target which will in turn assist us to qualify as a *Global Giving* project.

For more information or to make a donation visit: [http://goto.gg/13219](http://goto.gg/13219)

Please help us rise to the challenge and meet our target by donating between the 1st & 30th April 2013 via the *Global Giving* website above.

Sydney’s injured and orphaned kangaroos and wallabies need your help to grow up and return to the wild strong and healthy.
